Free expression of all points of view is an important democratic value in this community. To allow all persons to speak who may wish to do so, each speaker is asked to complete a Public Comment Card and allowed a maximum of 3 minutes to address the Board. An effective approach is to lead with your key point or concern and then explain the reasons underlying it. If others have already expressed your views, you may simply indicate that you agree with the previous speaker. To encourage and respect expression of all views, meeting rules prohibit clapping, booing or shouts of approval or disagreement from the audience. Individuals that are disruptive may be removed from the meeting.

NOTICE: If a person desires to appeal any decision of the Board of Supervisors of the Central County Water Control District with respect to any matter considered at this meeting, the person will need a record of the meetings, and for this purpose he or she may need to insure that a verbatim record of the meeting is made, which includes all testimony and evidence upon which the appeal is to be based. Napoles asked District Engineer to check the elevation in the area reference to Mr. Roberto Perez's area of concern (Canal #4)

Reservoir Workshop — Napoles stated that the only way to stop others (non-residents) form entering the reservoir, was to have a law officer guard the gate. He asked that it be allocated in the budget for this to be done, \$12,000.00 for 52 weekends. Not all weekends have to be covered, possibly just the long holiday weekends and any other random day(s) that the Manager wanted. Napoles stated that this wasn't the place or a position for an employee to handle, due to the disturbance and confrontation that could arise. So that is why he asked for law enforcement, an arresting officer (if need be). Motion Did Not Pass — this will be brought back for a vote at the next meeting.

Chair Miller inquired about the riser boards that had been removed from pumps #9 & 10 and asked if there was a way to lock the boards in place. The Manager informed Chair Miller that Faraldo and himself had a discussion in reference to this matter and would be ordering locks. Faraldo stated that he spoke to District Engineer in regards to this matter and asked that it be investigate further as to why the boards were removed (making effort to confirm this wasn't done due to water levels).
